SALOONS ORDERED TO CLOSE

Mayor Marshall Attacked and Saved By Firemen With Water Hose—Inspector Shocked and Non-Union Employee Hit on Head With Hammer.

Columbus, O., July 28.—First blood has been spilled, and excitement runs high in the strike of union conductors and motormen of the Columbus street railway lines operated by the Columbus Railway and Light company.

While passing the barns of the Milo district Perry Ebert, a youth of 19, ran into a bullet fired by a strike-breaker into a crowd of union sympathizers, stopping the pellet with his right leg. Ebert was taken to the Protestant hospital, painfully injured. The shooting of Ebert precipitated a small riot, and for a time serious results were threatened.

Inspector Geiger of the Rail-Light company received severe shocks while repairing a burned out fuse, the result of a short-circuit in the trolley wire, effected by strikers. He was taken to his home.

The hammer was added to the list of strike weapons when Frank Sheets, a laborer for the street railway company, was struck on the head, near High and Spring streets, and was badly hurt. It is said that strike sympathizers were responsible for the injury to Sheets, but up to a late hour the police had obtained no names. Sheets was taken to the Protestant hospital, where his condition, while not necessarily fatal, was said to be serious.

Mayor Leads Police.

At the West Side barns a fierce riot broke out and Mayor Marshall hastened to the scene in an automobile to take charge of the situation. The mob at once charged the mayor's automobile, two patrolmen and a patrol wagon driver being seriously injured before the rioters were driven back by a fire company from a nearby engine house playing on the crowd with a hose.

One car was wrecked on the Leonard avenue line during the noon hour by employees of the Panhandle railway, who had disappeared by the time the auto patrol arrived.

Mayor Marshall, in view of the threatening situation, has ordered all saloons in the city closed until the streetcar difficulty is settled.

Six police officers were more or less seriously injured and 76 arrests for rioting were made.

Manager E. K. Stewart again failed to make good his promise to operate cars on all lines after nightfall, operations on all streets leading through the densely populated union districts being discontinued at 5 o'clock and the running of cars on High street and a few thoroughfares where the sympathy of the people is with the Rail-Light company was of an exceedingly spasmodic order.

Both sides assert that they are satisfied with the situation and that they are prepared to fight it out to the bitter end.

TURN DOWN JACK'S OFFER

"L'! Atha" Not to Be Admitted to Big Motor Races.

Indianapolis, Ind., July 27.—Several days ago Jack Johnson, the victor over Jeffries, made application to enter his high power car in the September races at the Indianapolis motor speedway. When the management refused to consider the application Johnson's representative asked that he be permitted to give an exhibition drive. C. G. Fisher, president of the speedway company, announced that Johnson would not be allowed to give the exhibition. No reason was assigned, but it was understood that the white speeders objected to the presence of "a negro thumper" on the track.

His Scheme.

"I suppose you talk dialect to amuse the summer boarders?" "I used to," answered Farmer Haw, "but not now. I call the farmhouse a bughouse in this year's prospectus, and everything will be on a high brow plane."—Philadelphia Bulletin.

WILL CALL OUT STATE TROOPS

Mayor Decides That Request For Militia Justified.

THREE ARE SHOT IN RIOTS

Many Others Receive Injuries When Bullets, Stones and Other Missiles Are Exchanged by Opposing Sides. Tracks Are Impeded, Windows Smashed and Explosives Used in Controversy—Police Work Hard to Control Mobs.

Columbus, O., July 27.—In view of developments in the streetcar strike, Mayor Marshall has decided to call on the governor for troops at once. The call is expected to be issued today. The mayor declared that he was impelled to this action because he believed that irresponsible men had been placed on the streetcars, as evidenced by the shooting from cars into the crowds during the night, and the wounding of several persons. It is said that the Second, Third and Sixth regiments and Troop A of Cleveland will be called.

Three distinct riots of formidable proportions engaged the police attending the efforts of the Columbus Railway and Light company to maintain streetcar service on its lines after nightfall, the net result of which are fully a dozen injured, several of which were rushed to hospitals in a serious condition.

Cars were stoned by the mobs, windows being demolished, and derailment resulting in one or two cases. Dynamite played a part in the day's program, and but for timely discovery might have resulted in serious loss of life. Enough of the deadly explosive was found by the police on the tracks of the Leonard avenue line to have blown a car and its occupants to atoms, and automobile patrols were rushed to the scene to intercept further demonstrations. All over the city cars encountered torpedoes and other explosives, which sent consternation to the hearts of timid patrons and those manning the cars.

Riots on West Side.

The locality of the West Side barns, in West Broad street, was again the scene of the principal rioting. A crowd of strikers and their sympathizers assembled at the car barns, and when attempts were made to run cars there was conflict between the opposing factions. The crowd had shied stones and bricks at a car in charge of Motorman James Houshelt, and the latter, becoming enraged, drew a revolver and fired, one bullet striking Dr. A. V. Miller, a dentist, the pellet penetrating deeply into his right thigh. Miller was a passerby and was a nonparticipant. He was rushed to the Protestant hospital. Houshelt was rescued from the mob by the police and taken to headquarters, where charges of shooting to kill were preferred against him. The police were taxed to their utmost, but finally succeeded in dispersing the infuriated mob, which was bent on taking Houshelt.

Beecher Morrison, one of a crowd which had gathered about a car at Broad and Gift streets, was shot twice, one bullet penetrating the left leg and another the foot, both shots being fired by Conductor S. A. Simmons of the intercepted car.

Crowd Blocks Cars.

At Dennison and Goodale streets the crowd blocked several cars, and Motorman Harry Meades fired two shots. He was taken by the police, however, before he had succeeded in wounding any one. One motorman lost his courage and attempted to desert his car. He was arrested and taken to police headquarters for blocking traffic. At the last named point several cars were badly damaged by missiles thrown by the strike sympathizers, a number of them having their windows completely shattered. The three carmen who did the shooting were all lodged in jail, and charges of shooting to kill were preferred against them.

A small riot occurred at the Milo barns and several arrests were made. At Linden, the crowd poured gasoline on the tracks ahead of the cars and set fire to it.

Saloons were closed all day throughout the city upon orders of the mayor.

Attempts to maintain car service were kept up until toward midnight, but were gradually abandoned as resistance from the strikers continued. But little effort was made, however, to run cars on the more hostile thoroughfares. Patronage was fairly good in the principal business section, but elsewhere the public evinced a preference for walking.

There was no change in the situation, both sides expressing satisfaction with the progress so far made, and both declaring their intention of continuing hostilities.

Somers Buys Cleveland Club.

Cleveland, O., July 27.—J. K. Kilfoyle sold his stock in the Cleveland baseball club to Charles Somers, vice president of the American league. Somers is now sole owner of the club. The retirement of Kilfoyle is believed to be the first step toward bringing Fielder Jones here as manager of the Naps.

S. S. S. & BLOOD PURIFIER

Any system that needs a tonic needs also a blood purifier, for it is the weakened and impure condition of the circulation that is responsible for the run-down state of health. We have only to recognize the importance of pure, rich blood in preserving health, to realize the danger of a weakened or impure circulation. Deficient blood nutriment weakens the system, and it can not resist disease like a strong robust constitution. First the body has a worn-out feeling, the appetite is feeble, energy begins to flag, the digestion is bad, etc. If the condition is not corrected at this stage more serious results are sure to follow, and sometimes a long debilitating spell of sickness is the result. S. S. S. is Nature's tonic, made of roots, herbs and barks. It is not a nerve stimulant, but a medicine that steadily builds up every portion of the system by supplying an increased amount of nourishment and restorative powers to every portion of the body. S. S. S. quiets the overstrained nerves, improves the appetite, tones up the stomach and digestion, and thoroughly enriches and purifies the blood. S. S. S. is a real tonic because it is a real blood purifier. S. S. S. contains no harmful mineral and persons of all ages can use it with the same beneficial results. Be sure to get S. S. S. for your tonic this year do not accept anything in place of it; there is nothing else "just as good" as S. S. S. You will find it all that is claimed for it.
